PIONEER UNIT HAULERS

PIONEER 14 & 20 UNIT HAULERS

Satellite's Pioneer 14 and Pioneer 20 Unit Haulers are built to make hauling easier, lighter, and more efficient. Featuring a durable all-aluminum construction, these trailers deliver strong, professional-grade performance while improving handling and efficiency on the road. Innovative front, side, and rear loading options provide unmatched flexibility in the field, making the Pioneer series the go-to choice for portable sanitation professionals who demand reliability, versatility, and smarter hauling.

- FRONT ALUMINUM STORAGE BOX
- LED LIGHTING

PIONEER 14 UNIT HAULER

Satellite's Pioneer 14 is designed to enhance the unit hauling experience through a lighter weight trailer than current steel unit haulers on the market. With its all-aluminum design, innovative front, side and rear loading features and robust performance, the Pioneer 14 has become the go-to unit hauler for many portable sanitation professionals.
