

HIGHRISE

The Highrise restroom is designed for the construction industry, fitting where other restrooms cannot with its compact dimensions of 33.5 inches wide and 87.8 inches high. This size allows easy movement through halls and doorways to the needed location. Its sealed casters prevent freeze-up and can be greased for reliability, with the front two casters lockable for stability. The galvanized metal frame and floor offer robust protection against damage during lifting and handling. This restroom provides essential privacy, maneuverability, and durability, making it indispensable for construction sites. Choose the Highrise for unmatched convenience and performance on the jobsite.
