

HIGH CAPACITY, 5-SERIES CHASSIS

MAL 1175

775 GALLON WASTE / 400 GALLON FRESH

The MAL1175 is designed for routes that require high levels of maneuverability and a large number of daily services. Lightweight 5454 aluminum construction combined with a 5-series chassis gives this route truck all the maneuverability of a pick-up with the capacity of a large service truck. Dual low-profile cabinets provide plenty of storage, and the lowered workstation provides an efficient ergonomic service area even for smaller-stature drivers. A full range of vacuum and washdown systems can be custom-tailored to fit your specific application.

- **LIGHTWEIGHT ALUMINUM UNIT HAULER:** This feature provides safe and secure points for transporting standard portable toilets, and the aluminum construction reduces effort for loading and unloading.
