**P&D
700**

455-GALLON WASTE / 245-GALLON FRESH

Satellite Vacuum Trucks now offers the ultimate P&D truck for pulling trailers. The short-chassis P&D 700 is specifically designed for quick and efficient trailer positioning. Its tight turning radius and ergonomic design provide a clear view of the trailer while backing up, making it easy to spot and avoid obstacles that are often hidden when towing with standard service trucks.
